

TIN HTUN OO

Junior Developer – Chatbots & Frontend

tinhtun1999@gmail.com | +66 909 148 469 | [GitHub](#) | [Portfolio](#) | Bangkok, Thailand

PROFESSIONAL SUMMARY

Motivated Frontend Developer with hands-on experience in React and Next.js, seeking to grow into chatbot and conversational AI development. Proven ability to build responsive, API-integrated web applications from concept to deployment. Detail-oriented team player with strong self-learning skills and a proactive approach to solving complex technical challenges. Native Burmese speaker with professional-level English communication.

TECHNICAL SKILLS

- **Frontend:** React, Next.js, JavaScript, TypeScript, HTML, Tailwind
- **APIs & Data:** REST API Integration, Supabase
- **Backend / Database:** MySQL, Prisma
- **Tools & Workflow:** Git, Agile Methodologies
- **Other:** Responsive Design, Performance Optimization, Debugging

LANGUAGES

- **Burmese:** Native proficiency
- **English:** Intermediate to Upper-Intermediate (spoken & written)

PROJECTS

Food Fusion – Recipe Sharing Platform

NCC Level 5 Backend Project

PHP · Tailwind CSS · JavaScript · MySQL

- Developed a full-stack recipe sharing website featuring user authentication, dynamic content rendering, and a community cookbook with post and comment functionality.
- Implemented relational database design and server-side logic to handle user-generated content at scale.

Flight Ticket Booking Website (Client & Admin)

NCC Level 5 Computing Project

Next.js · JavaScript · Tailwind CSS · Prisma · MySQL

- Built a user-facing flight search interface with destination/date filtering, airline logos, booking management, and fully responsive design.
- Developed a separate admin dashboard for managing airlines, routes, and booking records, demonstrating ability to build multi-role applications.

Oway — Myanmar Heritage Fashion E-Commerce

Next.js · Tailwind CSS · TypeScript · Supabase

- Built a full-stack e-commerce platform featuring authentication, product catalog, cart, order management, and database-level security policies.

EDUCATION

B.E. Mechatronics Engineering

Technological University, Hmawbi

- Coursework in systems thinking, automation, and engineering problem-solving — foundations applicable to chatbot logic and workflow automation.

NCC Education

Level 5 Diploma in Computing

- Practical training in full-stack web development, database design, and software engineering principles, demonstrated through real-world project work.
